

Working with Pages

Administrators and super user can add pages to both Portal and C-Panel; they can also determine the pages access permission depending on users/roles.

Adding Pages to the Portal

Step1. On SageFrame C-Panel, click the **Pages** option.

Step2. Click on **'Portal Pages'** radio button to create pages for the portal or else click **'admin pages'** to create pages for admin.

Since we are creating a new page for the portal, we have **'Portal pages'** selected:-

Step3. On **Page Details** tab, set the following properties of the page:-

- **Page Name (Required):** Enter a page name that you wish to add.
- **Caption (Optional):** Caption acts as a tagline to a page in the menu.
- **Parent Page (Optional):** Assign the page to any parent pages listed in the dropdown.
- **Refresh Interval:** Enter the refresh interval for the page.
- **Icon:** Choose an image for the page. This field is required.
- **Include in Menu (Optional):** Tick mark the checkbox to include the page in the menu by selecting a **'menu'** from the dropdown.
- **Is Secure:** Check the checkbox to provide a secure connection or SSL (Secure Socket Layer) to the page.
- **Page Title:** Name of the page that would appear in the title bar of any browser. This field is required.
- **Description (For SEO):** Short description about the page.
- **Keywords (For SEO):** Metadata keywords used by browsers and search engines to find your page.

Page Details

Page Details

Page Name:	<input type="text" value="Support"/>	Page Title:	<input type="text" value="SageFrame support: always there to"/>
Caption:	<input type="text" value="to assist you"/>	Description:	<div style="border: 1px solid #ccc; padding: 5px; min-height: 100px;">SageFrame support: always there to assist you.</div>
Parent Page:	<input type="text" value="---None---"/> ▼	Keywords:	<div style="border: 1px solid #ccc; padding: 5px; min-height: 100px;">SageFrame, Support, help </div>
Refresh Interval:	<input type="text" value="3"/>		
Icon:	<input type="text" value="edit.png"/> <input type="button" value="Choose File"/>		
Include In Menu?	<input checked="" type="checkbox"/>		
Select Menu:	<div style="border: 1px solid #ccc; padding: 5px; background-color: #f0f0f0;"> <ul style="list-style-type: none"> <li style="background-color: #e0e0e0; padding: 2px;">Main Menu <li style="padding: 2px;">Side Menu <li style="padding: 2px;">Furniture Footer Menu <li style="padding: 2px;">Footer Community <li style="padding: 2px;">Footer Resources <li style="padding: 2px;">Footer Aboutus <li style="padding: 2px;">FurnitureMenu <li style="padding: 2px;">Site Page Top Menu </div>		
Is Secure?	<input checked="" type="checkbox"/>		

Step4. Page Permissions allows the administrator or super users to control the **view/edit** access of the pages depending on **users and roles**. You can easily set page permissions by clicking on the preferred checkboxes. Click the  **Save** option to save the page permissions.

Page Permission Settings

 **Add User**

Role	View	Edit
Super User	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Anonymous User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Site Admin	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Registered User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
nepal	<input type="checkbox"/>	<input type="checkbox"/>
new role	<input type="checkbox"/>	<input type="checkbox"/>

 **Save**  **Cancel**

Adding a User for Page Permission

You can also set the permissions to view/edit the page to a specific user in the role instead of setting it to the whole user. To set the permission to a specific users follow the steps below:

- Click the  **Add User** in the Page Permission Settings pane. A Search User dialog box appears.
- Enter the name of the user in the search box and click on  **Search** option. A list of users with the name that you have typed in will be listed. Select the user to whom you want to assign the permission and click the  **Add** button.

- The user name is now displayed on the Page Permission Settings pane where you can set the permissions for the user.

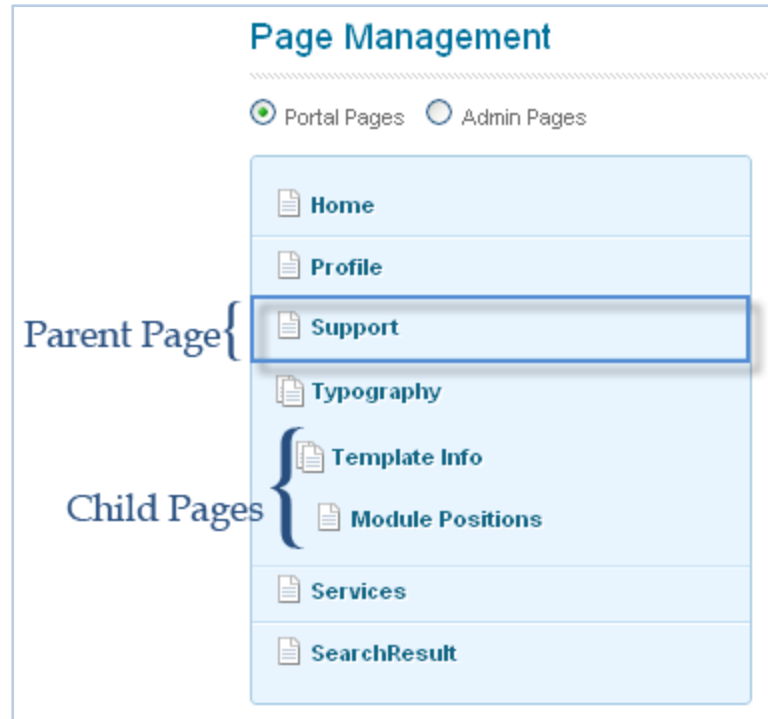

Role	View	Edit
Super User	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>
Anonymous User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
Site Admin	<input type="checkbox"/>	<input checked="" type="checkbox"/>
Registered User	<input checked="" type="checkbox"/>	<input type="checkbox"/>
nepal	<input type="checkbox"/>	<input type="checkbox"/>
new role	<input type="checkbox"/>	<input type="checkbox"/>
Jazmine	<input checked="" type="checkbox"/>	<input type="checkbox"/>

 Save
  Cancel

- Once you are done granting page permission click the  Save button to save the page settings. Upon which you will be notified with

 **Page Saved Successfully!** message.

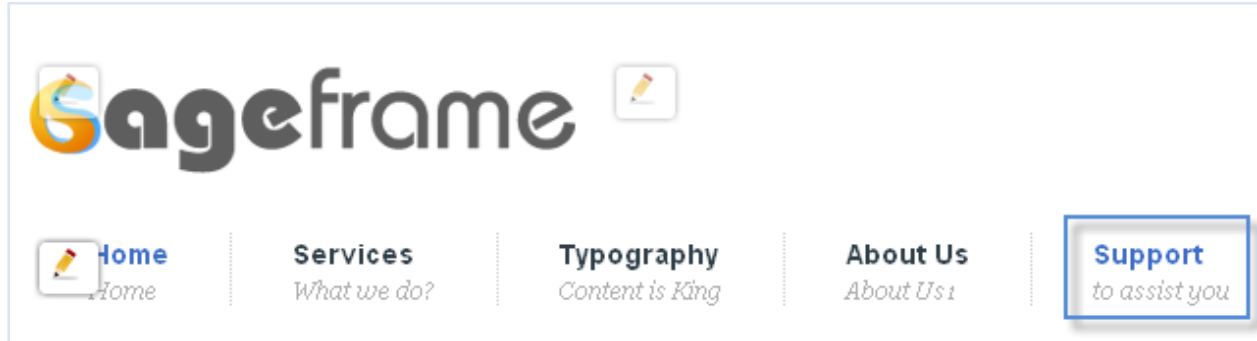

- The pages that you created will appear on the left side on a tree view of the Page Management page.

Right clicking on the page will display a context menu consisting of 2 options as below:-

Newly Added page on the front-end:-

Adding Pages in the Admin Area

Pages added in the admin area will be visible only to the administrator; pages can be visible to others users only when they have the view permission set for them by the administrator. Steps to adding pages in the admin area are same of **adding pages to the portal** as described above.

Note: Make Sure to Click on **Admin Pages** radio button on the **Portal Management** page.
